

A few weeks

I don't really remember, maybe 1-2 weeks? I had to prepare the recommendation letters, transcripts, and any other forms they needed from me.

around 2-3 months

3) How many schools did you apply for at once, for one academic year?

11 or 12

I only applied to one school.

4) Were you satisfied with the choice you made for your academic studies? (Meaning, were you certain that you made the right choice for your major and school/location?)

I applied based on location.

Yes

At first I was satisfied, but now I think I should've researched a bit more for other schools to only focus on the one thing I wanted to study.

At that time and with the experience I had and limited time, I was somehow satisfied.
