

User Testing & Revised Prototype

Suggested Changes:

- **Home Page functionality** could be improved
- **Flow** could be improved
- Missing **Back** buttons
- Missing **Skip** options
- **Copy language** could be improved with a humanly language, rather than serious
- **Filter Locations** based on proximity to **airports**
- **Extracurricular** options for schools
- **Profile connection** is a bit confusing
- **Navigation arrows** for quiz could be added
- Application **deadlines**/how many days left
- **Priority** scale
- **Schedule a reminder** instead of sending it now
- Work on **language**
- **Dot navigation** in the beginning is hard to use
- **Skip** option to not do the quiz and go to the profile
- Add a **label/title to Profile Sign up**
- **Separate the connection of profiles** to a **new tab**, since it is consist to open the profile
- Add **labels and names** to the **Majors & Schools**
- Connect terminology between initial questions and quiz
- Preference are complex, make them friendly
- **Sliders** on tuition
- Instead of a **dropdown** what could be a better way?
- **Matches count** that updates throughout the app
