

Split screen showing two phones
for a student & a parent

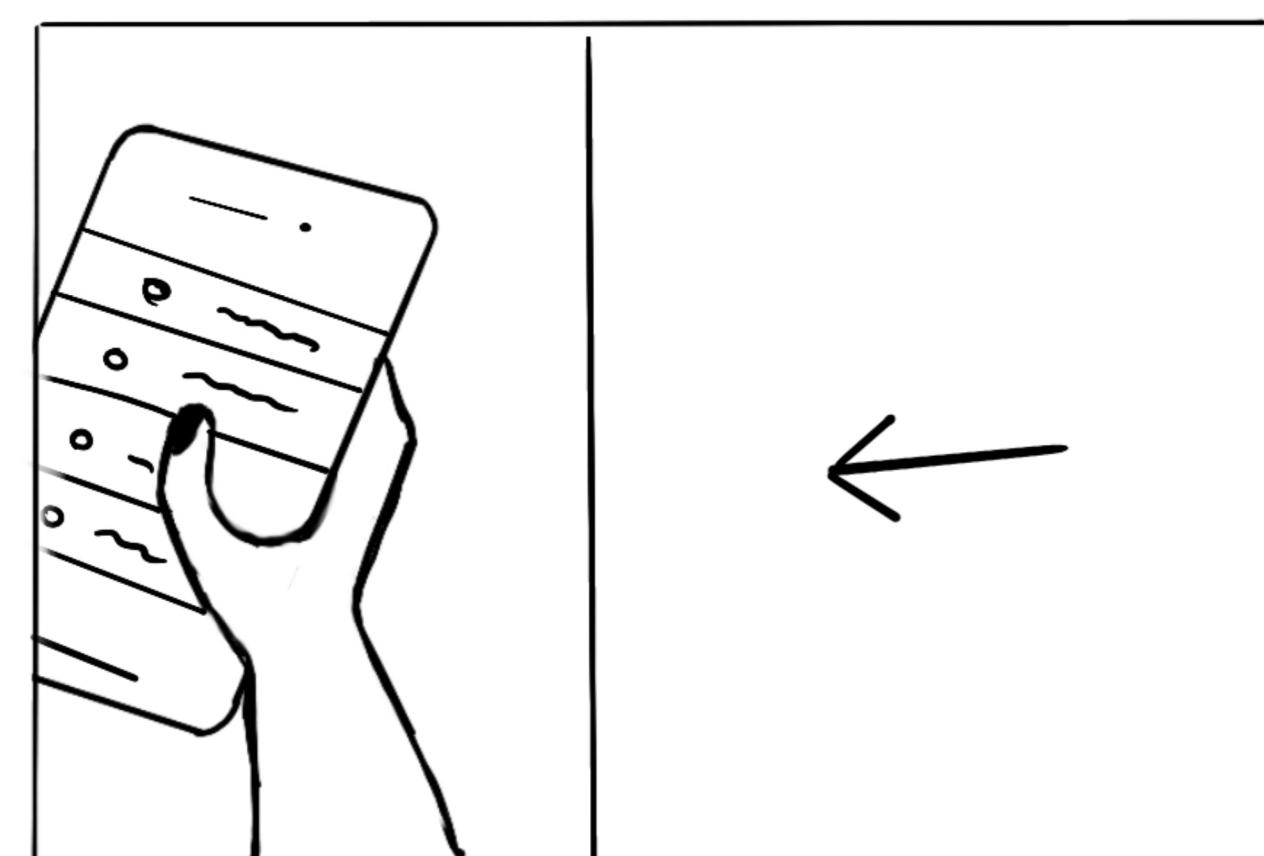

Two hands grab the phone
one female to represent the student
the other one a male to represent
the mentor/parent

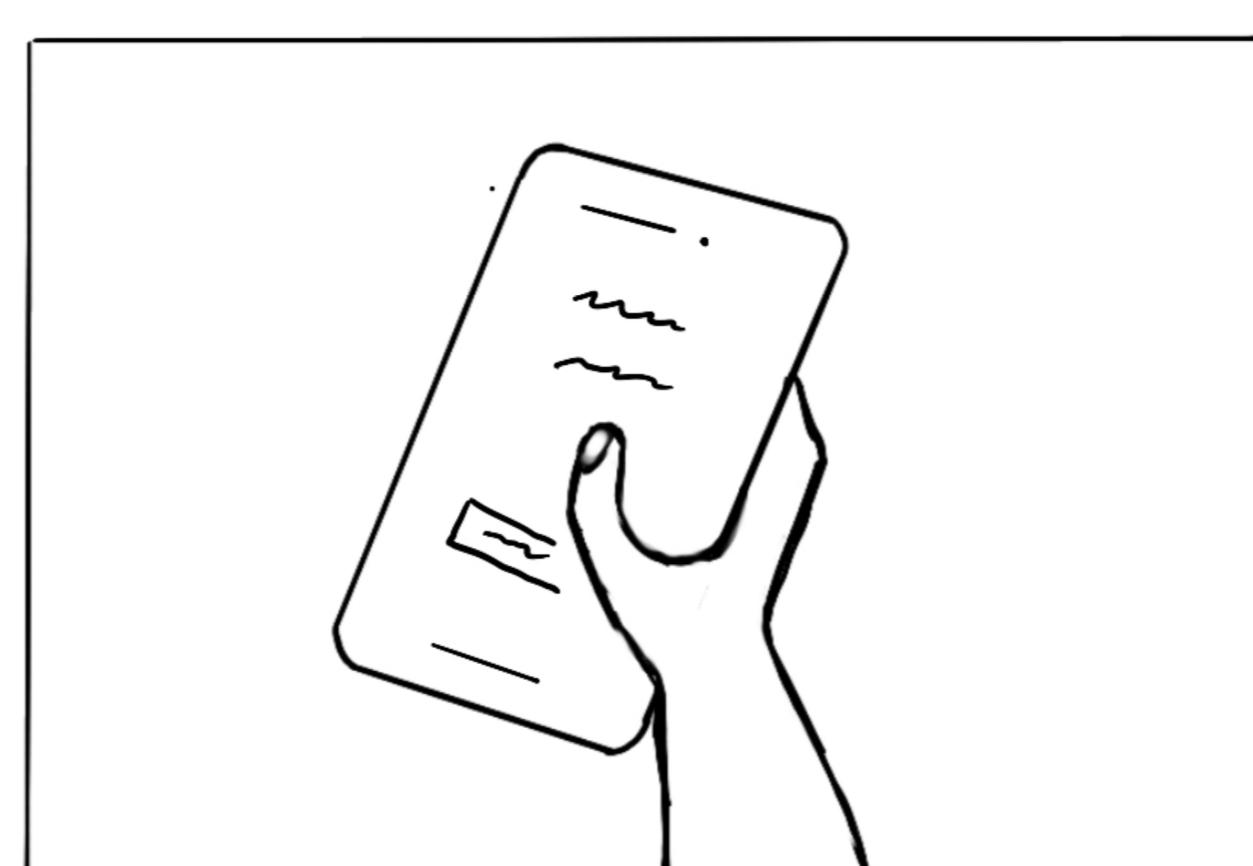

Split screen slides to the right
to show close up full app interaction
beginning with choosing the major
search for undergraduate school

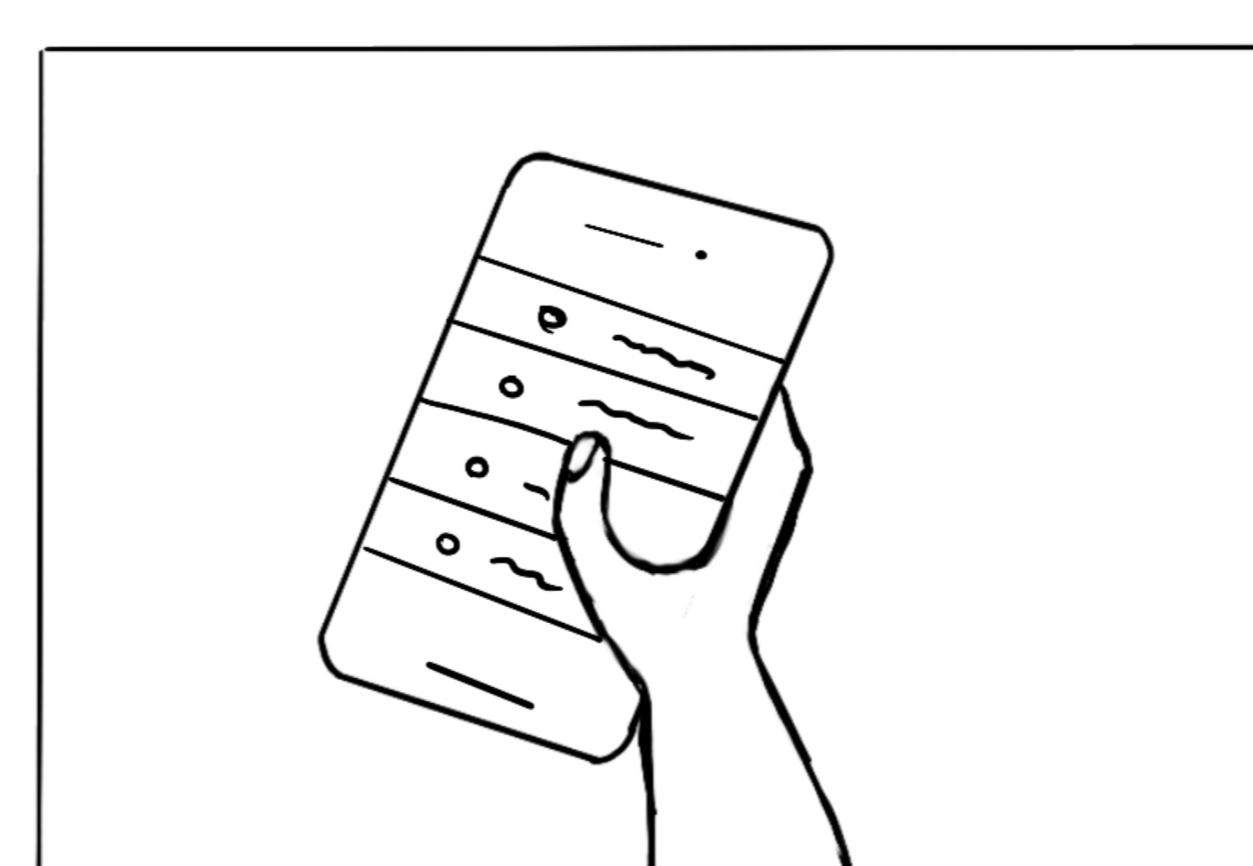

student Interaction ends
with checking off a completed
application

Student view slides to left
to reveal parent/Mentor
view

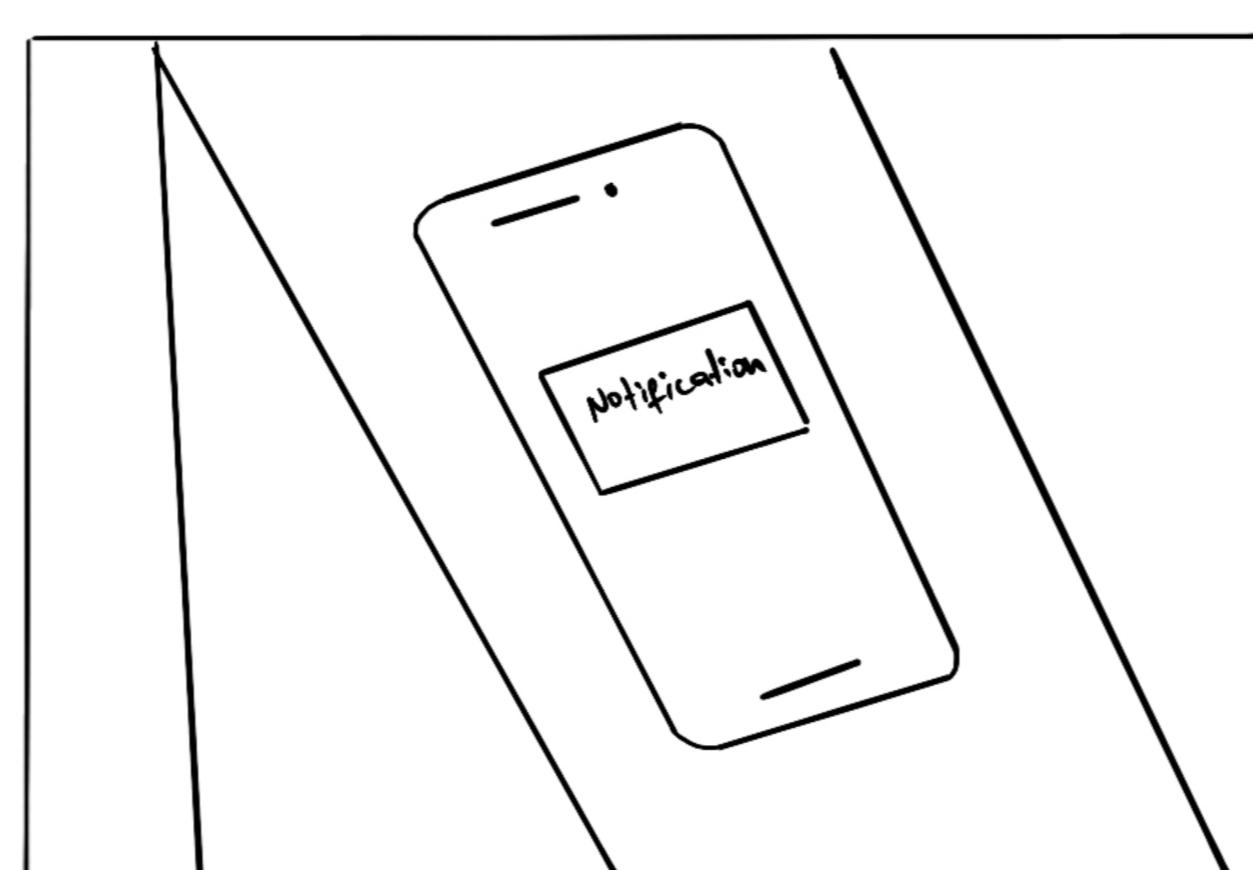

Close up of the full parent/
mentor interaction, starting
with choosing school search
for graduate student

Prototype demo ends with
parent/mentor sending a
reminder to a kid / mentee

screen splits to the left
again to show instant
notification that mentor
sent as the last action

Close up of the Notification
that the kid/mentee gets
on the couch
