- University Match Maker
  - For International students
  - Helps how to find the right University for what
    a student is looking for.

    - Could include filtering system to
      find academic universities and location
      to move

    - source to find the right major

  * List schools and what do they require for
    admissions.

    - SAT / GMAT
    - Application fees
    - resume requirement
    - GPA requirement
    - Transfer Credits
    - Tuition Cost
    - Finding Parking options
    - Finding Accesibility
      routes

    - Quiz app to
      offer best matches
      for majors and
      then ...
    - filter down which
      schools are ranked
      better for that major.

- Tracker for pets when they eat something:
  - Neck piece that connects to an app and calls the owner to pay attention
  - ability to either have a loud noise or a vibration to make the animal stop eating

  - Can also track bark noise + alerts via an app

  - built in camera to be able to see why the owner is getting alerted

II) side   Top

- Pop up 360° camera for more expensive option

I) Top   Side   Bottom   Front/side

- Through a connection to a watch or phone app users can:
  - ~~start~~ activate loud noise or vibration to distract the pet
  - open the camera to see if whatever they are eating couldbe dangerous or not
  - ~~Record this~~

- Pet alert app
- for monitoring potential food risk
- Checking danger by pet disturbance

- get alerts when the pet barks or is disstressed to keep track of the safety.
